EARLY INTERVENTION

FREE WORKSHOPS

Is your child's developmental progress what you think it should be?

The Deron School of NJ and Trinitas Children's Therapy Center announce a partnership to provide FREE Early Intervention Workshops.

Thursdays 9:30 - 11:00 A.M.

The Deron School of NJ
1140 Commerce Avenue, Union

Structured Workshops

Learn from experienced professionals about your child's behaviors. Get insight into important developmental milestones in speech and language, sensory processing, self-help, fine and gross motor skills, as well as coping strategies. Monthly themes will be broken down into four workshops. Each week, one of our team members will address the month's topic as it relates to their area of expertise. They'll answer questions and provide you with valuable resources and insights.

"Experts tell us that 90% of all brain development occurs by the age of five. If we don't begin thinking about education in the early years, our children are at risk of falling behind by the time they start Kindergarten."

- *Robert L. Ehrlich*

Monthly Themes

- ★ Recognizing Developmental Milestones & Integrating Therapeutic Strategies Into Daily Routines
- ★ Addressing Specific Motor, Language, Social & Behavioral Concerns
- ★ Providing a Safe Environment for Your Child

Experienced Professionals

- ★ Board Certified Behavior Analysts
- ★ Certified Teachers of Students with Disabilities
- ★ Physical, Occupational & Speech Therapists
- ★ Social Workers

Workshops are held every Thursday

Space is limited. To register for our next series of FREE workshops call 908-206-0444, email

earlyintervention@deronschool.org or mail the registration form to Deron.
